### Wiggle Worms Nature Class

Celebrate the seasons with year-round outdoor exploration. Young learners can investigate our outdoor living classroom and garden, interact with farm animals while learning about their care, and hike to natural spaces. Children will have the opportunity for child-led outdoor play, creative arts, and guided activity time. On any given day you may see children digging in the soil, jumping in puddles, climbing in trees, or building with sticks.

### Farm Friends Afterschool Club

Spend the afternoon getting back to nature with garden discoveries, natural play, building, creative arts, and caring for our onsite animals including the goats! Children can bus to our location from Pinon School or be dropped off.
